The battle between the light and the darkness will soon begin... Leading from the darkness that has fallen over the lands, the dark kingdoms of the demon lords, called the elden, rise again. They attempt to conquer the Lands Between, but they are nothing more than shadows in a world where the lights of the alphicans, the angels of light, shine brightly. In the village of Raging, long since destroyed by these dark forces, the alphicans gather once again to protect the village and purify its once pure citizens of the Elden Ring. Leaving behind the darkness within himself, you will be chosen by fate as the successor of the next ruler of the Elden Ring. What destiny awaits the chosen one of the Elden Ring? Will it be one of triumph and victory, or of terror and destruction...? NEED INFORMATION ON EQUIPMENT AND UPGRADES EQUIPMENT Use the upgrade panel to improve your equipment. 5/5 "The story is well built and drawn out. Boss battles do come much later than the beginning of the game, but you do not feel cheated since I would assume you expect that the game would take a turn that way. The story is very important to me, and I definitely don't regret playing through it." "I also enjoyed the conversation between characters and the personal stories, there were some pretty interesting conversations. The characters are fairly interesting. There are various factions in the game, and the various information you get is still very useful if you want to find out the connections between them. I enjoyed this a lot, and I'm glad that they decided to do it." 3/5 "The game does have some major faults, it won't get a full 5/5. Most of the characters are often not voiced, and are therefore, very poorly constructed. There are times where the game's protagonist is overly idealistic, and will almost always speak with a righteous tone. Even though the people are about the same age, they won't really act the same. This is because the game focuses a lot on romance scenes, which can be very difficult to deal with when you are having a lack of respect for the player's personal feelings." "Overall, while I didn't like the elements of convenience, I did like the story. The voice acting was generally good, and there are plenty of things to look out for. The story was told in an interesting way, and I will be looking forward to the next episode." 3/5 "The graphics are pretty average, and I have no strong feelings about them. The sound effects are pretty generic, but they were alright. The music was just alright, but the voice acting was great. The volume of text was moderate, but very rarely felt overwhelming. I liked the voice acting, and the text was basically understandable. There was nothing I hated, so it got a 3/5." "There is no core gameplay that really matters, but there is no way to change how much the player will fight, there is no choice in how long it takes to reach the boss battles, there is no control over how many people are attacking you on the screen at any one time, and there is no way to make any change to the game. What's left is to make sure you like the voice acting, and I think that everyone will bff6bb2d33
