[ ABOUT COMPACT DRUMS ] “COMPACT DRUMS” The critically acclaimed RPG also utilizes a unique form of interactive sword-and-shield combat – the “A-Timer”. When you hold down the button, your shield will automatically activate and separate, allowing you to execute powerful A-Type attacks. The A-Timer is a key battle skill that boosts you while aiding your ally. [ ABOUT COMPACT SWORDS ] “COMPACT SWORDS” The RPG contains two different types of sword attacks – “A-Type” and “B-Type”. B-Type attacks can be executed using either a shield or a sword. The B-type of shield attacks are especially effective against heavy attacks. An “A-Timer” is a key battle skill that boosts your offensive capabilities. By holding down the button, you can execute powerful A-Type attacks which go along with your shield’s activation. The battle system’s A-Timer skill will randomly activate during battle. The A-Timer will not activate when you lock-on, so it’s easy to switch back and forth between A-Timer and A-Type attacks. [ ABOUT CHARACTER PERKS ] “CHARACTER PERKS” Character development in the RPG will allow you to freely combine the skills and items that you equip. • CUSTOMIZABLE PERKS – While some armor or weapons will influence the use of related skills, it’s possible to freely combine the skills and items that you equip. • ONLINE PERKS – You can freely make use of the offline game attributes (such as health and stamina) even when you’re offline. [ ABOUT CHARACTER SKILL DETAILS ] “CHARACTER SKILL DETAILS” Perks are divided into two types. The skills that increase the level of a certain attribute are called “Enhancement Perks”. • Enhance Perks – The attributes such as muscle strength, defense, and magic will increase. • Skill Attribute Parameters – Some enhancements will increase the level of an attribute by a certain amount. On Wednesday, Twitter announced a partnership with the United Nations International Telecommunications Union (“ITU”) to allow its users to tweet alongside UN ambassadors. The new Twitter account, @UNWhistleblower, will tweet updates on important issues related to peace and security and will feature tweets from real UN ambassadors and experts in their respective fields. Chief among these will be James Anaya, the United Nations Special Rapporteur on the situation of human rights in the Central American isthmus (i.e., the Mexico-Guatemala border) and other countries. In April, Anaya issued a report calling on Mexico to address the human rights crisis in the country’s southern border zone through implementation of the UN Declaration on the Protection of All Persons from Enforced Disappearances. Anaya also is a Special Rapporteur on the rights to freedom of peaceful assembly and of association. He’s currently chairing the Inter-American Commission of Human Rights Advisory Board. His agency, the United Nations Human Rights Council, invited Anaya to make his 2011 report, which concluded that Mexico is failing to meet its human rights obligations, at this year’s session. “Twitter is a powerful tool that can help to inform the public about the issues and challenges facing the United Nations, whether it’s in the Central American isthmus or elsewhere,” Anaya said in a press release. “The company has a global footprint, so I’m excited to be working with its Twitter team to amplify information about the human rights situation in countries and regions where I travel.” ITU Director-General Dr. Hamadoun Toure, who will serve as the organization’s “ambassador” on Twitter, said the partnership will “give the world a better view into the evolving world of diplomacy and highlight the need for greater access
