"Rise, Tarnished" is a first-person fantasy RPG that intends to fully immerse the player in its experience. With a rich and original scenario and a variety of elements, it also displays a brilliant attention to detail. "It's very fun to wander around, because the scenery is very beautiful and the environment is very detailed. It also makes good use of the sound effects and the voice work for the characters, so it has a real depth. The quests are plentiful and there is no repetition in the game. It's also a great job of making the game as enjoyable as it is for all audiences." Tatjana, EFANALO: A first-person fantasy RPG. With a rich and original scenario and a variety of elements, it also displays a brilliant attention to detail. "I really like the monster designs, and I like that their graphics don't become repetitive. It was a pleasure to explore these dungeons. For me, the best part of the game was going through the game's various castles. This was because its stylistic elements are so well-balanced. They're well-written and simple, but at the same time, they're never boring. The monster designs are also nice. Overall, it's a really interesting game." Ichiko, ITU: A first-person fantasy RPG. With a rich and original scenario and a variety of elements, it also displays a brilliant attention to detail. "The font works really well, and the game's graphics are very nice and well-drawn. The quests are varied, and they're also easy to understand and simple. The characters even have different voice actors. It was a real joy to see how they spoke. The monsters in the game are also well-designed, so they've got more depth to them than the typical goblin and monster. Even though it's a fantasy story, the magic system in the game was done really well, and there's a lot of variety to it. Overall, it's really quite a beautiful game." Miles, ITU: A first-person

What's new in Elden Ring:

You are a sword, a knight, a dragon. Summons and battles are but the tools of your trade. Though you may be powerful, you are a small part of the world. While it is outside your attention to recall, things change, and as the shadows gather, something bigger rumbles. The lands around you begin to crumble, and the shadows grow ever closer. Something is coming, and its arrival will affect each and every last person in the Lands Between. This town has built its existence off of nothing. You were abandoned shortly after your birth, and it has become this point, where the line between a living world and a broken world is blurred. Hundreds of years pass like a blink, and yet this town grows ever more filthy and rotten. You are the sword. Your existence is a small, and often overlooked plot point. The destiny you were meant for was greater than any that you could have ever known. The Lands Between was made for you. For you to be what you were meant to be.
